EMAS

GESTIONE AMBIENTALE
VERIFICATA
reg. n. IT-00907

Emas is a European trademark that identifies a European eco-management and audit system that provides for a programme of initial environmental analysis of the manufacturing unit, a specific intervention policy, compliance with ISO 14001 regulations and a project for the periodic revision of processes aimed at safeguarding the environment. The manufacturing plant satisfies all the requisites set out in the EMAS regulations.

Emas è un marchio europeo che identifica un sistema comunitario di ecogestione e audit che prevede un programma di analisi ambientale iniziale dell’unità produttiva, una precisa politica di interventi, la conformità alla normativa ISO 14001 ed un progetto di revisione periodica dei processi destinati a proteggere l’ambiente. Lo stabilimento produttivo soddisfa tutti i requisiti richiesti dalla normativa EMAS.

Emas ist ein europäisches Gütesiegel, das für ein Gemeinschaftssystem beim freiwilligen Umweltmanagement und eine Umweltbetriebsprüfung steht, die eine anfängliche Umweltanalyse des Werks, eine präzise Ablaufstrategie für Wartungseinsätze, die Konformität mit der Richtlinie ISO 14001 und einen regelmäßigen Revisionsplan im Bereich der Umweltschutzverfahren umfassen. Die Produktionsstätte erfüllt alle Anforderungen, die von der Richtlinie EMAS verlangt werden.

GREEN BUILDING COUNCIL ITALIA

The manufacturing plant satisfies all the requisites set out in the ISO 14001-2004 regulations.

Lo stabilimento produttivo soddisfa tutti i requisiti richiesti dalla normativa ISO 14001-2004.

Die Produktionsstätte erfüllt alle Anforderungen, die von der Richtlinie ISO 14001-2004 verlangt werden.

CEMENT_IT E IL SISTEMA **NCS**®©

Per la collezione **Cement_It**, Class Tile ha voluto avvalersi di un *sistema colorimetrico* che permette di definire precisi accostamenti e di creare un **legame cromatico e armonico** tra la ceramica e tutto ciò che fa parte della progettazione degli ambienti, quali arredi, tessuti, finiture, pitture murali etc etc.
In questo modo si vanno a sopperire quelle problematiche che spesso designer e architetti riscontrano in fase progettuale, quando per esempio si vogliono identificare toni, mezzitoni o accostamenti ai fini di una buona realizzazione.

Il sistema **NCS**®© viene quindi usato in modo strategico **per rafforzare la gestione della componente cromatica in maniera precisa e logica.**

NCS - Natural Colour System®© è un sistema logico di ordinamento e definizione del colore basato sulla nostra percezione. La notazione NCS®© si basa sulla somiglianza tra un preciso colore e i sei colori elementari: bianco (W), nero (S), giallo (Y), rosso (R), blu (B) e verde (G).

*For the **Cement_It** collection, **Class Tile** based the development of the design on a **"colour based system"**, that allows to precisely match shades in order to create a **chromatic and harmonic bond** between ceramics and design whether it is with furniture, textile, wall finishes and wall paintings.*
Designers and architects are able to overcome difficulties while planning and identifying colour tones, half tones and different combinations, so as to achieve the best possible result.

*The **NCS**®© system has the aim **to enhance the use of the chromatic components in a precise and logical manner.***

*The **NCS- Natural Colour System**®© is a logical colour arrangement and description system based on our perception. The NCS®© notation is based on how much of a resemblance a colour has to the six colours that the human eyes identify as elementary: white (W), black (S), yellow (Y), red (R), blue (B) and green (G).*

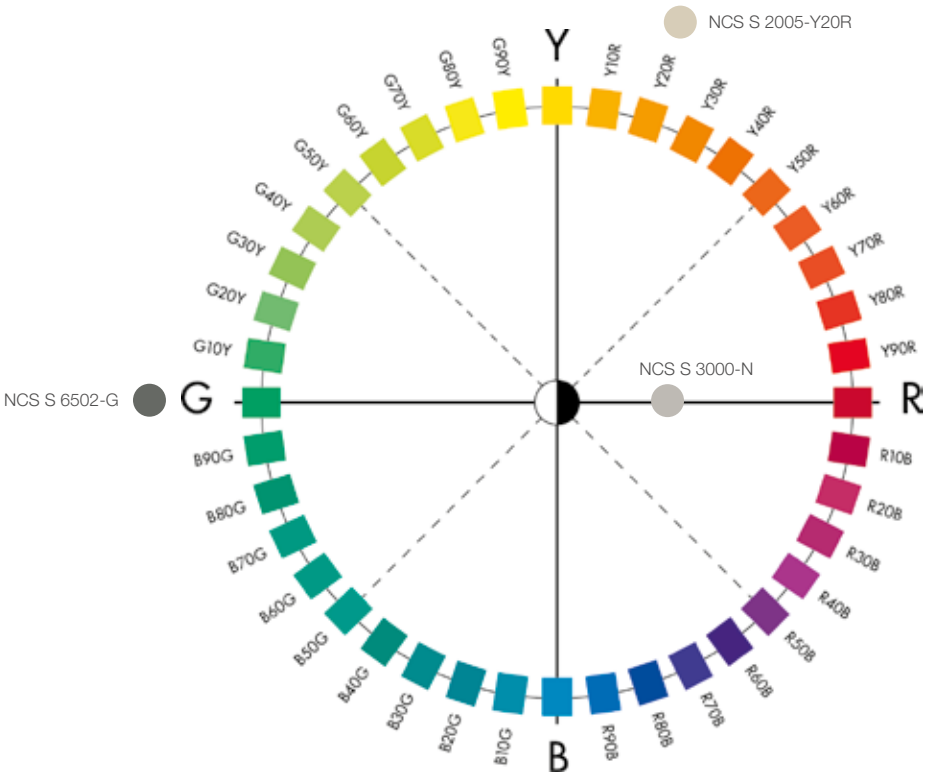
*Bei der Kollektion **Cement_it** hat **Class Tile** sich eines **Farbsystems** bedient, das uns eine präzise Angleichung und eine **chromatische und harmonische** Einheit zwischen der Keramik und Allem was mit dem Design des Umfelds in Verbindung steht, als da sind Einrichtung, Stoffe, Oberfläche, Wandbemalung usw. in Verbindung steht, erlaubt.*
Auf diese Weise ist es möglich, die Schwierigkeiten, auf die Architekten und Designer oftmals in der Projektphase treffen, z.Bsp. wenn Farbtöne und Halbtöne zu identifizieren sind, zu lösen und das Ziel einer gelungenen Realisation zu erreichen.

*Das System **NCS**®© wird somit auf **strategische Weise eingesetzt, um die Anwendung der chromatischen Komponente auf präzise und logische Weise zu unterstützen.***

***NCS - Natural Colour System**®© ist auf der Grundlage von Zuordnung und Definition der Farbe mittels unserer Wahrnehmung entwickelt worden. Die Notation NCS®© basiert auf der Ähnlichkeit zwischen einer bestimmten Farbe und der sechs Elementarfarben:*
Weiß (W), Schwarz (S), Gelb (Y), Rot (R), Blau (B) und Grün (G).

NCS – Natural Color System®© property of and used on licence from NCS colour AB, Stockholm, Sweden (2015).
The colours might not exactly match original NCS colour samples.

NCS S 3000-N NCS S 6502-G NCS S 2005-Y20R



LETTURA CODICE NCS®©

Esempio: **Cement_it Beige**
NCS S 2005-Y20R
S: campione Standard
2005: nuance, cioè il grado di somiglianza con il nero (20%) e con la massima cromaticità (5%)
Y20R: è la tonalità ed indica la somiglianza del colore ai due colori elementari giallo Y=80% e rosso R=20%.
Quindi Cement_it Beige ha nerezza 20%, cromaticità 5% e rappresenta un giallo con il 20% di rosso.

READING CODE NCS®©

Example: **Cement_it Beige**
NCS S 2005-Y20R
S: *campione Standard*
2005: *colour nuance, the level of similarity with the colour black (20%) and with the maximum chromaticity (5%).*
Y20R: *is the hue and indicates the similarity of the colour to the elementary colours yellow (Y=80%) and red (R=20%).*
In Cement_it Beige blackness is 20% the chromaticity is 5%, and it's a yellow with 20% of red.

LESEN DES CODES NCS®©

Beispiel: **Cement_it Beige**
NCS S 2005-Y20R
S: *Probenstandard*
2005: *Nuancen , dh der Grad der Ähnlichkeit zwischen der Farbe schwarz (20%) und der maximalen Farbwert (5%).*
Y20R: *ist der Ton und zeigt die Ähnlichkeit der Farbe zu den beiden Primärfarben Gelb und Rot an.*
Y= 80%, R=20%.
Somit hat Cement_it Beige 20% Schwarztöne und 5% Farbwert und stellt ein Gelb mit 20% Rot dar.
